Profile

Ph.D. candidate in Economics at Sungkyunkwan University. My research centers on portfolio choice and asset pricing. My recent work focuses on real estate, with several ongoing projects on housing and commercial markets. I apply big data, econometrics, and machine learning to real estate prices.

Education

Sungkyunkwan University Ph.D. in Economics	Expected 2030
Sungkyunkwan University M.A. in Economics	2026
Inha University B.S. in Industrial Engineering	2024

Research Interests

Commercial Real Estate · Housing Markets · Asset Pricing · Portfolio Choice · Big Data & Machine Learning

Awards & Fellowships

Korean Finance Association – Kiwoom Securities Ph.D. Fellowship Expected 2026–2027
Best Paper Award, Korean Financial Management Association 2025
BK21 Fellowship, Sungkyunkwan University, Master’s Program 2024–2025
BK21 Fellowship, Sungkyunkwan University, Ph.D. Program Expected 2026–2027

Conference Presentations

- Korea’s Allied Economic Associations Annual Meeting, Financial Engineering Session February 2026
- Korean Financial Management Association Annual Conference November 2025
- Asia-Pacific Association of Finance International Conference July 2025
- SERI International Conference July 2025
- Seoul Workshop on Empirical Finance May 2025
- Korean Financial Management Association Annual Conference November 2024
- SERI International Conference July 2024
- Korea’s Allied Economic Associations Annual Meeting February 2024

Skills

Econometrics: Panel data, hedonic pricing

Machine Learning (including DL): Tabular prediction with panel structures, interpretability (SHAP, PFI, PDP), image-based analysis, text mining, ensemble methods

Programming: R (fixest, tidyverse), Python (scikit-learn, PyTorch), DuckDB, SQL

Tools: L^AT_EX, Git

Languages

Korean (native) · English (proficient)

Military Service

Republic of Korea Army 2019–2021
CBRN Specialist, Division Artillery Brigade Headquarters and Headquarters Battery
Capital Mechanized Infantry Division, Artillery Brigade
